

Palm Reader

IPR811 Palm Reader – Control/T&ATerminal

The I-Palm is a multi-biometric identification Time & Attendance and Access Control terminal, which can connect to door strikes mag locks, door sensors, and exit buttons.

The unit comes with the latest palm/fingerprint identification algorithm and streamlined technology; it can hold 600 palm templates and up to 20,000 fingerprint templates without dividing into groups.

Communicating is done via Wi-Fi, TCP/IP or USB which ensures a smooth connection and data transfer. Amazing verification speed and an intuitive operation process makes it a popular choice.

Elaborately designed and finely manufactured, it will match your slap-up office perfectly.
